QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2011

or

TRANSITIONAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 000-28063

deltathree, Inc.
(Exact Name of Registrant as Specified in its Charter)

Delaware

(State or other jurisdiction of incorporation or organization)

13-4006766

(I.R.S. Employer Identification Number)

224 West 35th Street, New York, N.Y.

(Address of principal executive offices)

10001-2533

(Zip Code)

(212) 500-4850

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer
Non-accelerated filer

Accelerated filer
Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 10, 2011, the registrant had outstanding 72,273,525 shares of common stock, par value \$0.001 per share.

DELTATHREE, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

1. Basis of Presentation

Financial Statement Preparation

The unaudited condensed consolidated financial statements of deltathree, Inc. and its subsidiaries (collectively referred to in this Quarterly Report on Form 10-Q as the "Company", "we", "us", or "our"), of which these notes are a part, have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the instructions of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of our management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation of the financial information as of and for the periods presented have been included.

The results for the interim periods presented are not necessarily indicative of the results that may be expected for any future period. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes for the year ended December 31, 2010, included in our Annual Report on Form 10-K filed with the SEC on March 17, 2011 and all of our other periodic filings, including Current Reports on Form 8-K, filed with the SEC after the end of our 2010 fiscal year and through the date of this Report.

Going Concern

The Company has sustained significant operating losses in recent periods, which has resulted in a significant reduction in its cash reserves. The Company and its subsidiaries have entered into three loan agreements with D4 Holdings, LLC, its majority stockholder, pursuant to which D4 Holdings has agreed to provide the Company with loans in the aggregate principal amount of \$3,800,000. The initial Loan and Security Agreement was entered into on March 1, 2010, and the Company has drawn the maximum principal amount of \$1,200,000. On August 10, 2010, the Company and its subsidiaries entered into the Second Loan and Security Agreement, or the "Second Loan Agreement", with D4 Holdings with a maximum principal amount of \$1,000,000, and the Company has drawn the maximum principal amount available under the Second Loan Agreement. In connection with the Second Loan Agreement, the Company issued D4 Holdings a warrant to purchase up to 4,000,000 shares of the Company's common stock at an exercise price of \$0.1312 per share. On March 2, 2011, the Company and its subsidiaries entered into the Third Loan and Security Agreement, or the "Third Loan Agreement", with D4 Holdings, pursuant to which D4 Holdings agreed to provide the Company and its subsidiaries an additional line of credit in a principal amount of \$1,600,000. Pursuant to the terms of the Convertible Promissory Note, or the "Convertible Note", issued by the Company in connection with the Third Loan Agreement, D4 Holdings may elect to convert all or any portion of the outstanding principal amount under the Convertible Note into that number of shares of the Company's common stock determined by dividing such principal amount by \$0.08 (as may be adjusted under the terms of the Convertible Note). Simultaneous with the Company's entering into the Third Loan Agreement, D4 Holdings and the Company entered into an amendment of the First Loan Agreement, pursuant to which (among other things) the maturity date for repayment of principal under the First Loan Agreement was extended from March 1, 2011, to March 1, 2012. In connection with the Third Loan Agreement, the Company issued D4 Holdings a warrant to purchase up to 1,000,000 shares of the Company's common stock at an exercise price of \$0.096 per share. As of March 31, 2011, the Company had received advances of an aggregate of \$550,000 from D4 Holdings pursuant to notices of borrowing under the Third Loan Agreement, the principal amount of which can be converted by D4 Holdings into an aggregate of 6,875,000 shares of the Company's common stock. Each loan advance under the Third Loan Agreement requires the satisfaction of certain conditions, including a condition that there shall not have occurred, in D4 Holdings' sole discretion, any material adverse change in the Company's business, operations or condition (financial or otherwise) or a material impairment in the prospect of repayment of any portion of our obligations under the loan agreements. In the event that any such events occur, the Company may be unable to access credit under the Third Loan Agreement.

As of March 31, 2011, the Company had negative working capital equal to approximately \$2.9 million as well as negative stockholders' equity equal to approximately \$2.6 million. The Company believes that it will continue to experience losses and increased negative working capital and negative stockholders' equity in the near future and will not be able to return to positive cash flow before it requires additional cash (in addition to any further amounts it may borrow from D4 Holdings under the Third Loan Agreement) in the near term. The Company may experience difficulties accessing the equity and debt markets and raising such capital, and there can be no assurance that the Company will be able to raise such additional capital on favorable terms or at all. If additional funds are raised through the issuance of equity securities, the Company's existing stockholders will experience significant further dilution. As a result of the foregoing factors, there is substantial doubt about the Company's ability to continue as a going concern.

Use of Estimates

Our consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates and assumptions that affect the amounts reported and disclosed in the consolidated financial statements and the accompanying notes. Actual results could differ materially from these estimates.

Concentration of Credit and Business Risks

Financial instruments that potentially subject the Company to concentration of credit risk consist principally of cash and cash equivalents and trade accounts receivable. The Company performs ongoing credit evaluations of its customers and adjusts credit limits based upon payment history, age of the balance and the customer's current credit worthiness, as determined by a review of the customer's current credit information. The Company monitors collections and payments from its customers and maintains an allowance for doubtful accounts based upon historical experience and any specific customer collection issues that have been identified. A considerable amount of judgment is required in assessing the ultimate realization of these receivables. Customer receivables are generally unsecured.

Sales to material customers representing ten percent or more of total revenues for each of the three months ended March 31, 2011 and 2010, and accounts receivable as of March 31, 2011, and December 31, 2010, were as follows:

Customer	Revenues		Accounts Receivable	
	For the Three Months Ended March 31, 2011	For the Three Months Ended March 31, 2010	As of March 31, 2011	As of December 31, 2010
Reseller A	38%	44%	17%	47%
Reseller B	21%	9%	13%	7%
Service provider A	11%	7%	40%	29%

Earnings per Common Share

Basic earnings per common share is computed by dividing net income by the weighted-average number of shares of common stock outstanding during the reporting period. Diluted earnings per common share is computed by dividing net income by the combination of dilutive common share equivalents, comprised of shares issuable under the Company's stock option and stock incentive compensation plans, and the weighted-average number of shares of common stock outstanding during the reporting period. Dilutive common share equivalents include the dilutive effect of in-the-money shares, which is calculated based on the average share price for each period using the treasury stock method. Under the treasury stock method, the exercise price of a share, the amount of compensation cost, if any, for future service that the Company has not yet recognized, and the amount of estimated tax benefits that would be recorded in additional paid-in capital, if any, when the share is exercised are assumed to be used to repurchase shares in the current period.

2. Stock-Based Compensation

Options

Stock-based compensation cost is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the employee's requisite service period in accordance with the provisions of "Compensation – Stock Compensation" [ASC 718-10].

The Company has no awards with market or performance conditions.

The risk-free interest rate assumption is based upon observed interest rates appropriate for the terms of the Company's employee stock options. The Company does not target a specific dividend yield for its dividends payments but is required to assume a dividend yield as an input to the Black-Scholes model. The dividend yield assumption is based on the Company's history and expectation of future dividends payout and may be subject to substantial change in the future. The expected life of employee stock options represent the period the stock options are expected to remain outstanding. The Black-Scholes model assumes that an employee's exercise behavior is a function of the option's remaining contractual life and the extent to which the option is in-the-money (i.e., the average market price of the underlying stock during the period is above the strike price of the stock option).

Options to purchase an aggregate of 250,000 shares of the Company's common stock were granted during the three months ended March 31, 2011.

3. Commitments and Contingencies

Lease Commitments

The Company leases its executive offices at 224 West 35th Street, New York, N.Y. The term of the lease is until August 31, 2011, with an option for the Company to extend the lease through August 31, 2012. Rent expense, net, for the three months ended March 31, 2011, was \$6,150.

Delta Three Israel Ltd., a wholly-owned subsidiary of the Company, leases an office that houses the Company's research and development facilities in Jerusalem, Israel. The term of the lease is until June 30, 2012, with an option for the subsidiary to extend the lease through June 30, 2015. Rent expense, net for the subsidiary for the three months ended March 31, 2011, was \$41,750.

Legal Proceedings

On August 31, 2010, the U.S. Department of Homeland Security, or the DHS, seized approximately \$176,000 held in the Company's bank accounts in connection with its investigation into the activities of certain of the Company's resellers. In subsequent conversations with the Assistant United States Attorney for the Eastern District of New York, or the U.S. Attorney, which is assisting the DHS in the investigation, the Company was informed that the government suspects that these resellers were engaged in money laundering activities. In addition, the U.S. Attorney stated that the Company failed to file certain reports of cash payments under applicable law. The Company is opposing this seizure, and on October 12, 2010, it filed a petition with the DHS for the return of the money. On February 4, 2011, the Company's petition was denied, and on February 22, 2011, the Company presented an offer of compromise. In the event the Company's petition is denied it has the right to present a revised offer of compromise. The Company also has the right to seek judicial action at any time for the return of the seized funds. In accordance with FASB Statement 5, "Loss Contingencies" [ASC 450-20], the Company accounted for the seizure as a loss contingency that is probable of occurrence and recognized a loss in the entire amount seized. Any recovery of the seized amounts would be recognized as a reversal of the loss recognized.

In addition, from time to time the Company is a party to legal proceedings, much of which is ordinary routine litigation incidental to the business, and is regularly required to expend time and resources in connection with such proceedings. Accordingly, the Company, in consultation with its legal advisors, accrues amounts that management believes it is probable the Company will be required to expend in connection with all legal proceedings to which it is a party.

Regulatory Taxes, Fees and Surcharges

Some state and local regulatory authorities believe they retain jurisdiction to regulate the provision of, and impose taxes, fees and surcharges on, intrastate Internet and VoIP telephony services, and have attempted to impose such taxes, fees and surcharges, such as a fee for providing E-911 service. Rulings by the state commissions on the regulatory considerations affecting Internet and IP telephony services could affect our operations and revenues, and we cannot predict whether state commissions will be permitted to regulate the services we offer in the future.

The Company paid approximately \$29,800 of state and local taxes and other fees during the three months ended March 31, 2011. To the extent the Company increases the cost of services to our customers to recoup some of the costs of compliance this will have the effect of decreasing any price advantage the Company may have over traditional telecommunications companies.

In addition, it is possible that the Company will be required to collect and remit taxes, fees and surcharges in other states and local jurisdictions and which such authorities may take the position that it should have collected. If so, they may seek to collect those past taxes, fees and surcharges from the Company and impose fines, penalties or interest charges on the Company. The Company's payment of these past taxes, fees and surcharges, as well as penalties and interest charges, could have a material adverse effect on the Company.

4. Warrants and Convertible Note

As discussed above under "Basis of Presentation", the Company issued to D4 Holdings a warrant in connection with the Second Loan Agreement and a warrant and the Convertible Note in connection with the Third Loan Agreement. The Company evaluated the warrants in accordance with "Contracts in Entity's Own Equity" [ASC 815-40] and determined that the warrants should be classified as equity and should not be considered derivatives. The Company accounted for the Convertible Note in accordance with "Debt with Conversion and Other Options" [ASC 470-20], which requires the Company to recognize separately, at issuance, the embedded beneficial conversion feature of the Convertible Note as additional paid-in capital. The amount to be recognized is calculated as the difference between the effective conversion price of the convertible instrument and the fair value of the underlying shares on the issuance date. As a result, the Convertible Note was initially recorded as having no value as the beneficial conversion feature exceeded the carrying value of the Convertible Note.

5. Centre One

As discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the SEC on March 17, 2011, the Company was a party to a lawsuit initiated against the Company and other defendants by Centre One. On March 29, 2011, Centre One and the Company filed a Stipulated Motion for Dismissal with Prejudice dismissing the Company from the lawsuit with Centre One, which was granted by the court on March 31, 2011. In connection with the conclusion of the lawsuit the Company reversed an accrual it had made for \$706,000 for expenses expected to arise from the litigation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and the Notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2010.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on current expectations, estimates, forecasts and projections about us, our future performance, the industries in which we operate our beliefs and our management's assumptions. In addition, other written or oral statements that constitute forward-looking statements may be made by us or on our behalf. Words such as "may," "expect," "anticipate," "forecast," "intend," "plan," "believe," "seek," "estimate," variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to assess. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. These risks and uncertainties include, but are not limited to, the following:

- our ability to obtain additional capital in the near term to finance operations;
- our ability to reduce our costs and expenses and expand our revenues;
- our ability to retain key personnel and employees needed to support our services and ongoing operations;
- our dependence on a small number of key customers for a significant percentage of our revenue;
- decreasing rates of all related telecommunications services;
- the public's acceptance of Voice over Internet Protocol, or VoIP, telephony, and the level and rate of customer acceptance of our new products and services;
- the competitive environment of VoIP telephony and our ability to compete effectively;
- fluctuations in our quarterly financial results;
- our ability to maintain and operate our computer and communications systems without interruptions or security breaches;
- our ability to operate in international markets;
- our ability to provide quality and reliable service, which is in part dependent upon the proper functioning of equipment owned and operated by third parties;
- the uncertainty of future governmental regulation;
- our ability to successfully seek the return of substantially all of the funds seized by the DHS and outstanding amounts owed to us by our largest reseller, which has temporarily suspended its operations;
- the impact of unrest in the Middle East on our customers doing business in that region;
- our ability to protect our intellectual property against infringement by others, and the costs and diversion of resources relating to any claims that we infringe the intellectual property rights of third parties;
- our ability to comply with governmental regulations applicable to our business;
- the need for ongoing product and service development in an environment of rapid technological change; and
- other risks referenced from time to time in our filings with the SEC.

For a more complete list and description of such risks and uncertainties, as well as other risks, please refer to the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the SEC on March 17, 2011. Except as required under the federal securities laws and the rules and regulations promulgated thereunder, we do not have any intention or obligation to update publicly any forward-looking statements or risk factors after the filing of this report, whether as a result of new information, future events, changes in assumptions or otherwise.

Overview

We are a global provider of integrated video and voice over Internet Protocol, or VoIP, telephony services, products, hosted solutions and infrastructure. We were founded in 1996 to capitalize on the growth of the Internet as a communications tool by commercially offering Internet Protocol, or IP, telephony services, or VoIP telephony. VoIP telephony is the real-time transmission of voice communications in the form of digitized “packets” of information over the Internet or a private network, similar to the way in which e-mail and other data is transmitted. While we began as primarily a low-cost alternative source of wholesale minutes for carriers around the world, we have evolved into an international provider of next generation communication services.

Today we support tens of thousands of active users around the globe through our service provider and reseller channel and our direct-to-consumer channel. We have built a privately-managed, state-of-the-art global telecommunications platform using IP technology and we offer a broad suite of private label VoIP products and services as well as a back-office platform. Our operations management tools include, among others: account provisioning; e-commerce-based payment processing systems; billing and account management; operations management; web development; network management; and customer care. Based on our customizable VoIP solutions, these customers can offer private label video and voice-over-IP services to their own customer bases under their own brand name, a “white-label” brand (in which no brand name is indicated and different customers can offer the same product), or the deltathree brand. At the same time, our direct-to-consumer channel includes our joip Mobile application (which is a new cellular phone application providing low cost mobile calls over 3G cellular networks as well as WiFi networks), iConnectHere offering (which provides VoIP products and services directly to consumers and small businesses online using the same primary platform) and our joip offering (which serves as the exclusive VoIP service provider embedded in the Globalrange cordless phones of Panasonic Communications). We are able to provide our services at a cost per user that is generally lower than that charged by traditional service providers because we minimize our network costs by using efficient packet-switched technology and interconnecting to a wide variety of termination options, which allows us to benefit from pricing differences between vendors to the same termination points.

Prior to 1999, we focused on building a privately-managed, global network utilizing IP technology, and our business primarily consisted of carrying and transmitting traffic for communications carriers over our network. Beginning in 1999, we began to diversify our offerings by layering enhanced IP telephony services over our network. These enhanced services were targeted at consumers and were primarily accessible through our consumer website. During 2000, we began offering services on a co-branded or private-label basis to service providers and other businesses to assist them in diversifying their product offerings to their customer bases. In 2001, we continued to enhance our unique strengths through our pioneering work with the Session Initiation Protocol, or SIP, an Internet Engineering Task Force standard that has been embraced by industry leaders such as Microsoft and Cisco. These efforts culminated in the launch of our state-of-the-art SIP infrastructure, and in doing so we became the first major VoIP service provider to deploy an end-to-end SIP network and services. In recent years, we have continued our pioneering efforts in SIP and these efforts have yielded significant new releases.

In 2009 we began the process of expanding the suite of our communications offerings into the global video phone services market. In the third quarter of 2009 we entered into an agreement with ACN Pacific Pty Ltd., a wholly-owned subsidiary of ACN, Inc., or ACN, pursuant to which we provide digital video and voice-over-IP services in Australia and New Zealand to ACN Pacific. In December 2010 we entered into an agreement with ACN Korea, a wholly-owned subsidiary of ACN, pursuant to which we provide digital video and voice-over-IP services in Korea.

In 2010 we continued to update our network by adding a video mail feature to our video phone applications and launching our joip mobile application in July 2010. Following the launch of the mobile application, in October 2010 we entered into a sales agency agreement with ACN pursuant to which ACN sells a private label version of joip Mobile under the ACN Mobile World brand in the United States and Canada. In addition, we offer the joip Mobile application on a white-label basis to other customers. Finally, we entered into affiliate agreements with different third parties pursuant to which such third parties refer potential subscribers to our joip Mobile application.

In March 2011 we entered into an introducer agreement with ACN Europe B.V., a wholly-owned subsidiary of ACN, pursuant to which ACN Europe will sell a private label version of joip Mobile under the ACN Mobile World brand in Europe.

As a result of the development and successful integration of these services, we believe that our full suite of service offerings constitutes a complete next generation communication service package that provides our customers the ability to customize, implement and rapidly launch digital next generation communications offerings.

As a complement to the initiatives we have taken to attempt to organically expand our businesses, we have also evaluated opportunities for growth through strategic relationships. In February 2009 we consummated a transaction with D4 Holdings pursuant to which we sold to D4 Holdings an aggregate of 39,000,000 shares of our common stock and a warrant to purchase up to an additional 30,000,000 shares of our common stock. D4 Holdings is a private investment fund whose ownership includes owners of ACN, a direct seller of telecommunications services. As a result of the transactions with D4 Holdings, we expect to continue to seek opportunities to provide services to ACN and enter into other commercial transactions that give us access to ACN's international marketing and distribution capabilities.

From an operational standpoint, in 2010 we continued to focus our near-term strategy and market initiatives on growing our service provider and digital next generation communications offerings while still supporting our core VoIP reseller and direct-to-consumer business segments. We also re-launched our sales and marketing efforts, hiring a Vice President of Business Development and Sales and additional members of our Sales Department, and expanded our sales and marketing capabilities. Finally, we obtained additional financing in connection with the transactions with D4 Holdings described below in "Liquidity and Capital Resources".

Trends in Our Industry and Business

A number of factors in our industry and business have a significant effect on our results of operations and are important to an understanding of our financial statements. These trends include:

Overall Economic Factors: Our operations and earnings are affected by local, regional and global events or conditions that affect supply and demand for telecommunications products and services. These events or conditions are generally not predictable and include, among other things, general economic growth rates and the occurrence of economic recessions; changes in demographics, including population growth rates; and consumer preferences. Our strategy and execution focus is predicated on an assumption that these factors will continue to promote strong desire for the utilization of telephony products and services and that the cost and feature advantages of VoIP alternatives will not be negatively impacted by unforeseen changes in these factors.

Industry: The telecommunications industry is highly competitive. In recent years we have seen new sources of supply for our underlying infrastructure that have reduced our overall costs of operation, including both advances in telecommunications technology and advances in technology relating to telecommunications usage, and have enjoyed the benefits of competition among these suppliers for a relatively limited amount of viable customers. A key component of our competitive position, particularly given the number and range of competing communications products, is our ability to manage operating expenses successfully, which requires continuous management focus on reducing unit costs and improving efficiency.

Consumer Demand: There is significant competition within the traditional telecommunications marketplaces (landline and wireless) and also with other emerging next generation telecommunications providers, including IP telecommunications providers, in supplying the overall telecommunications needs of businesses and individual consumers.

A key component of our competitive position, particularly given the commodity-based nature of many of our products, is our ability to sell to a growing demand base for alternative communications products, in both the developed and developing global marketplace. Within the developed global marketplace, our ability to sell broadband video and voice-over-IP products and services is directly linked to the significant growth rate of broadband adoption, and we expect this trend to continue. We benefit from this trend because our service requires a broadband Internet connection and our potential addressable market increases as broadband adoption increases. Within the developing areas of the world, our ability to sell alternative telephony products and services is linked to both the increasing baseline economic trends within these countries as well as the growing desire for individuals and businesses to communicate and do business outside of their own countries. We expect these trends to continue, and benefit from them because both the ability to afford long distance calls and the desire to make them increase as a result.

Political Factors: Our operations and earnings have been, and may in the future be, affected from time to time in varying degree by political instability, social unrest (including the recent social unrest in the Middle East) and by other political developments and laws and regulations, such as: telecommunications regulations; war, civil war, armed conflict, terrorism and other international conflicts; restrictions on production, imports and exports; price controls; tax increases and retroactive tax claims; expropriation of property; and cancellation of contract rights. Both the likelihood of such occurrences and their overall effect upon us vary greatly from country to country and are not predictable. At the same time, VoIP is becoming legal in more countries as governments seek to increase competition, and this helps us as service providers and resellers seek to meet their customers' telecommunications needs with newly available solutions. Both the likelihood of VoIP legalization and its overall effect upon us vary greatly from country to country and are not predictable.

Regulatory Factors: Our business has developed in an environment largely free from regulation. However, the United States and other countries have begun to examine how VoIP services should be regulated and to begin instituting such regulation, and a number of initiatives could have an impact on our business. These initiatives include the assertion of state regulatory and taxing authorities over us, FCC rulemaking regarding emergency calling services, the imposition of law-enforcement obligations like the Communications Assistance for Law Enforcement Act, referred to as "CALEA", marketing restrictions and data protection rules for Customer Proprietary Network Information, referred to as "CPNI", access to relay services for people with disabilities, local number portability, proposed reforms for the inter-carrier compensation system, and an ongoing generic rulemaking considering the classification of interconnected VoIP services under federal law. Complying with regulatory developments will impact our business by increasing our operating expenses, including legal fees, requiring us to make significant capital expenditures or increasing the taxes and regulatory fees we pay. We may impose additional fees on our customers in response to these increased expenses. This would have the effect of increasing our revenues per customer, but not our profitability, and increasing the cost of our services to our customers, which would have the effect of decreasing any price advantage we may have over traditional telecommunications companies.

Project Factors: In addition to the factors cited above, the advancement, cost and results of particular projects depend on the outcome of: negotiations with potential partners, governments, suppliers, customers or others; changes in operating conditions or costs; and the occurrence of unforeseen technical difficulties or enhancements. The likelihood of these items occurring and its overall positive or negative effect upon us vary greatly from project to project and are not predictable.

Risk Factors: See "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the SEC on March 17, 2011, and Part II. Item 1A. "Risk Factors" below for a discussion of the impact of market risks, financial risks and other risks and uncertainties that we face.

Revenues

Our revenues are derived mainly from resellers, service providers, and direct consumers of our video and voice-over-IP products and services. All revenues are recognized at the time the services are performed. The provision of video and voice-over-IP products and services through our resellers and service provider divisions accounted for approximately 86.4% and 87.4% of our total revenues for the three months ended March 31, 2011 and 2010, respectively, and the provision of VoIP telephony through our direct-to-consumer division accounted for approximately 12.8% and 11.7% of our total revenues for the three months ended March 31, 2011 and 2010, respectively.

Costs and Operating Expenses

Costs and operating expenses consist of the following: cost of revenues; research and development expenses; selling and marketing expenses; general and administrative expenses; and depreciation and amortization.

Cost of revenues consist primarily of network, access, termination and transmission costs paid to carriers that we incur when providing services and fixed costs associated with leased transmission lines. The term of our contracts for leased transmission lines is generally one year or less, and either party can terminate with prior notice.

Research and development expenses consist primarily of costs associated with establishing our network and the initial testing of our services and compensation expenses of software developers involved in new product development and software maintenance. Since our inception, we have expensed all research and development costs in each of the periods in which they were incurred.

Selling and marketing expenses consist primarily of expenses associated with our direct sales force incurred to attract potential service provider, reseller, and corporate customers and advertising and promotional expenses incurred to attract potential customers to our direct-to-consumer divisions. In addition, we expense all sales commissions paid to third parties that sell our products and services pursuant to the terms of our agreements with such third parties.

General and administrative expenses consist primarily of compensation and benefits for management, finance and administrative personnel, insurance premiums, occupancy costs, legal and accounting fees and other professional fees. Additionally, we incur expenses associated with our being a public company, including the costs of directors' and officers' insurance.

Depreciation and amortization consists of the depreciation calculated on our fixed assets.

We have not recorded any income tax benefit for net losses and credits incurred for any period from inception to March 31, 2011. The utilization of these losses and credits depends on our ability to generate taxable income in the future. Because of the uncertainty of our generating taxable income going forward, we have recorded a full valuation allowance with respect to these deferred assets.

Net Operating Losses

As of March 31, 2011, we had net operating losses, or NOLs, generated in the U.S. of approximately \$161 million. Our issuance of common stock to D4 Holdings in February 2009 constituted an "ownership change" as defined in Section 382 of the Internal Revenue Code. As a result, under Section 382 our ability to utilize NOLs generated in the U.S. prior to February 2009 (equal to approximately \$156 million) to offset any income we may generate in the future will be limited to approximately \$0.6 million per year from February 2009. The NOLs will expire at various dates between 2011 and 2029 if not utilized. Our ability to utilize our remaining NOLs could be additionally reduced if we experience any further "ownership change," as defined under Section 382.

Results of Operations - Three Months Ended March 31, 2011, Compared to Three Months Ended March 31, 2010

Revenues

Revenues increased by approximately \$0.7 million, or 22.6%, to approximately \$3.8 million for the three months ended March 31, 2011, from approximately \$3.1 million for the three months ended March 31, 2010. During this period, the number of minutes carried by our network increased by approximately 58% to approximately 100,000,000 minutes for the three months ended March 31, 2011 from approximately 63,000,000 minutes for the three months ended March 31, 2010.

Revenues generated by our reseller division increased by approximately \$0.4 million, or 16.6%, to approximately \$2.8 million for the three months ended March 31, 2011, from approximately \$2.4 million for the three months ended March 31, 2010. This was primarily due to the increase of approximately \$0.6 million in revenues generated by our two largest resellers from approximately \$1.6 million for the three months ended March 31, 2010, to approximately \$2.2 million for the three months ended March 31, 2011. This increase was partially offset by a decrease of approximately \$0.2 million in revenues generated by other resellers. Our two largest resellers accounted for approximately 78.6% of the revenue generated from our reseller division and approximately 58.9% of our total revenue during the three months ended March 31, 2011. By comparison, our two largest resellers accounted for approximately 66.7% of the revenue generated from our reseller division and approximately 51.6% of our total revenue during the three months ended March 31, 2010.

At the end of February 2011 our largest reseller temporarily suspended its operations and conducting business with our company due to the recent unrest in the Middle East and ongoing instability and operating difficulties caused by such unrest. At that time this reseller owed us approximately \$196,000 for services we had rendered, and that receivable remained outstanding as of March 31, 2011. In the event that this reseller does not resume operations and conducting business with our company and pay us substantially all of the outstanding amount, this would have a material adverse effect on our financial condition, liquidity and future revenues. We cannot provide any assurance that this customer will resume full operations and conducting business with our company in the near term, if at all. For the three months ended March 31, 2011, we recorded a provision of \$100,000 for losses on accounts receivable in connection with the outstanding amounts owed to us by this reseller.

Revenues generated by our service provider division increased by approximately \$160,000, or 51.3%, from approximately \$312,000 for the three months ended March 31, 2010, to approximately \$472,000 for the three months ended March 31, 2011. This increase was mostly due to the revenues generated from the service agreement we signed with ACN Korea pursuant to which we provide digital video and voice-over-IP services in Korea.

Sales to direct consumers increased by approximately \$131,000, or 36.9%, to approximately \$486,000 for the three months ended March 31, 2011, from approximately \$355,000 for the three months ended March 31, 2010. Revenues generated through our iConnectHere offering declined by approximately \$77,000 from approximately \$355,000 for the three months ended March 31, 2010, to approximately \$278,000 for the three months ended March 31, 2011. This was offset by the revenues generated by our joip Mobile offering, which increased from \$0 for the three months ended March 31, 2010, to approximately \$208,000 for the three months ended March 31, 2011, primarily as a result of the sales agency agreement we entered into with ACN pursuant to which ACN sells a private label version of joip Mobile under the ACN Mobile World brand in the United States and Canada.

Costs and Operating Expenses

Cost of revenues. Cost of revenues increased by approximately \$0.6 million, or 27.3%, from approximately \$2.2 million for the three months ended March 31, 2010, to approximately \$2.8 million for the three months ended March 31, 2011. Our network rent cost remained approximately \$0.3 million and our termination cost increased approximately \$0.6 million, or 35.3%, from approximately \$1.7 million for the three months ended March 31, 2010, to approximately \$2.3 million for the three months ended March 31, 2011. The main reason for the increase in cost of revenues was an increase in the amount of traffic being terminated over our network.

Research and development expenses. Research and development expenses increased by approximately \$71,000, or 19.6%, from approximately \$362,000 for the three months ended March 31, 2010, to approximately \$433,000 for the three months ended March 31, 2011. The main reason for the increase was the growth in the number of employees in our research and development department as well as higher salary expenses for our employees in the department. As a percentage of revenues, research and development expenses decreased to 11.4% for the three months ended March 31, 2011, from 11.8% for the three months ended March 31, 2010.

Selling and marketing expenses. Selling and marketing expenses increased by approximately \$290,000, or 117%, to approximately \$538,000 for the three months ended March 31, 2011, from approximately \$248,000 for the three months ended March 31, 2010. The main reason for the increase was salaries paid to new members of our sales and marketing department in the first quarter of 2011 and commissions paid to ACN in connection with the ACN Mobile World offering. As a percentage of revenues, selling and marketing expenses increased to 14.2% for the three months ended March 31, 2011, from 8.1% for the three months ended March 31, 2010.

General and administrative (income) expenses. General and administrative (income) expenses decreased by approximately \$814,000 to an income of approximately \$260,000 for the three months ended March 31, 2011, from an expense of approximately \$554,000 for the three months ended March 31, 2010. This was due primarily to a reversal of an accrual of \$706,000 for expenses expected to arise from our litigation with Centre One and the reversal of an accrual for tax liability that we had recorded in 2008 for \$158,000. This was partially offset by \$100,000 we recorded as a provision for losses on accounts receivable in connection with outstanding amounts owed to us by our largest reseller. Excluding these one-time items, our general and administrative expenses decreased in the three months ended March 31, 2011, by approximately \$50,000 from the three months ended March 31, 2010.

Depreciation and amortization. Depreciation and amortization decreased by approximately \$58,000, or 49%, from approximately \$118,000 for the three months ended March 31, 2011, to approximately \$60,000 for the three months ended March 31, 2010. This was caused by a decline in the value of our fixed assets during this period and a reduction in the amount of fixed assets we have purchased.

Income (Loss) from Operations

For the three months ended March 31, 2011, we recorded income from operations of \$219,000 compared to a loss from operations of \$464,000 for the three months ended March 31, 2010. This was due primarily to a reversal of an accrual of \$706,000 for expenses expected to arise from our litigation with Centre One and the reversal of an accrual for tax liability that we had recorded in 2008 for \$158,000.

Interest (Expense) Income, Net

We recorded interest expense of \$185,000 for the three months ended March 31, 2011, compared to \$0 for the three months ended March 31, 2010. This was due primarily to interest paid to D4 Holdings under our loan agreements and the expense recorded for the warrant we issued to D4 Holdings in connection with the Second Loan Agreement and the warrant and Convertible Note we issued to D4 Holdings in connection with the Third Loan Agreement.

Income Taxes, Net

We recorded net income tax expenses of \$6,000 for the three months ended March 31, 2011, compared to \$8,000 for the three months ended March 31, 2010.

Net Income (Loss)

For the three months ended March 31, 2011, we recorded a net income of \$28,000 compared to a net loss of \$472,000 for the three months ended March 31, 2010, due to the foregoing factors.

Liquidity and Capital Resources

Since our inception in June 1996, we have incurred significant operating and net losses due in large part to the start-up and development of our operations and our recent losses from operations. For the three months ended March 31, 2011, we recorded a net income from operations of \$28,000 compared to a net loss of \$472,000 for the three months ended March 31, 2010. To date, we have an accumulated deficit of approximately \$178 million.

As of March 31, 2011, we had cash and cash equivalents of approximately \$242,000 and restricted cash and short-term investments of approximately \$175,000, or a total of cash, cash equivalents and restricted cash of \$417,000, a decrease of \$58,000 from December 31, 2010. The decrease in cash, restricted cash, and short and long term investments was primarily caused by approximately \$815,000 in net cash used in operating activities during the three months ended March 31, 2011. Our average monthly cash burn during the three months ended March 31, 2011, was approximately \$200,000.

Cash used in or provided by operating activities is net income adjusted for certain non-cash items and changes in assets and liabilities. We had negative cash flow from operating activities of approximately \$800,000 during each of the three months ended March 31, 2011 and 2010. The decrease in our cash generated from operating activities was primarily driven by a reversal of an accrual of \$706,000 for expenses expected to arise from our litigation with Centre One and the reversal of an accrual for tax liability that we had recorded in 2008 for \$158,000, offset by a decrease of approximately \$159,000 of account receivables, \$92,000 of amortization related to the warrant we issued to D4 Holdings in connection with the Second Loan Agreement and the warrant and Convertible Note we issued to D4 Holdings under the Third Loan Agreement and \$100,000 as a provision for losses on accounts receivable.

Net cash used in investing activities is generally driven by our capital expenditures and changes in our short and long-term investments. For the three months ended March 31, 2011, we expensed \$86,000 for purchases of new equipment, compared to \$25,000 we expensed for purchases of new equipment for the three months ended March 31, 2010.

Financing cash flows have historically consisted primarily of payments of capital leases and proceeds from the exercise of options we have granted to our employees and directors. In February 2009 we consummated a transaction with D4 Holdings pursuant to which we sold to D4 Holdings an aggregate of 39,000,000 shares of our common stock and a warrant to purchase up to an additional 30,000,000 shares of our common stock for an aggregate purchase price of \$1.2 million. In addition, on March 1, 2010, we and our subsidiaries entered into the First Loan Agreement with D4 Holdings pursuant to which D4 Holdings agreed to provide us and our subsidiaries a line of credit in a principal amount of \$1.2 million. On August 10, 2010, we and our subsidiaries entered into the Second Loan Agreement with D4 Holdings, pursuant to which D4 Holdings agreed to provide us and subsidiaries an additional line of credit in a principal amount of \$1.0 million. In connection with the Second Loan Agreement, we issued D4 Holdings a warrant to purchase up to 4,000,000 shares of our common stock at an exercise price of \$0.1312 per share. We have drawn down all amounts available to be borrowed under the first two lines of credit. On March 2, 2011, we and our subsidiaries entered into the Third Loan Agreement with D4 Holdings pursuant to which D4 Holdings agreed to provide us and our subsidiaries an additional line of credit in a principal amount of \$1.6 million. Pursuant to the terms of the Convertible Note we issued to D4 Holdings in connection with the Third Loan Agreement, D4 Holdings may elect to convert all or any portion of the outstanding principal amount under the Convertible Note into that number of shares of our common stock determined by dividing such principal amount by \$0.08 (as may be adjusted under the terms of the Convertible Note). Simultaneous with our entering into the Third Loan Agreement, D4 Holdings and we entered into an amendment of the First Loan Agreement pursuant to which (among other things) the maturity date for repayment of principal under the First Loan Agreement was extended from March 1, 2011, to March 1, 2012. In connection with the Third Loan Agreement, we issued D4 Holdings a warrant to purchase up to 1,000,000 shares of our common stock at an exercise price of \$0.096 per share. As of May 16, 2011, the Company has received advances in an aggregate of \$1,000,000 from D4 Holdings pursuant to notices of borrowing under the Third Loan Agreement, the principal amount of which can be converted by D4 Holdings into an aggregate of 12,500,000 shares of our common stock. Each loan advance under the Third Loan Agreement requires the satisfaction of certain conditions, including a condition that there shall not have occurred, in D4 Holdings' sole discretion, any material adverse change in our business, operations or condition (financial or otherwise) or a material impairment in the prospect of repayment of any portion of our obligations under the loan agreements. In the event that any such events occur, we may be unable to access credit under the Third Loan Agreement.

There were no options exercised by our employees or directors during the three months ended March 31, 2011. For the three months ended March 31, 2011 and 2010, we paid approximately \$7,000 and \$39,000, respectively, for capital leases.

As discussed above under Note 3 of the Notes to the Condensed Consolidated Financial Statements contained in this report, the DHS seized approximately \$176,000 held in our bank accounts in connection with its investigation into the activities of certain of our resellers. We are opposing this seizure, and on October 12, 2010, we filed a petition with the DHS for the return of the money. On February 4, 2011, our petition was denied, and on February 22, 2011, we presented an offer of compromise. In the event our offer of compromise is denied, we have the right to present a revised offer of compromise. We also have the right to seek judicial action at any time for the return of the seized funds. Our inability to access these funds has had a material impact on our cash position and liquidity. In the event that we are unsuccessful in effecting the return of substantially all of the seized funds, this would have a material adverse effect on our business, liquidity and financial condition.

In addition, at the end of February 2011 our largest reseller temporarily suspended its operations and conducting business with our company due to the recent unrest in the Middle East and ongoing instability and operating difficulties caused by such unrest. At that time this reseller owed us approximately \$196,000 for services we had rendered, and that receivable remained outstanding as of March 31, 2011. In the event that this reseller does not resume operations and conducting business with our company and pay us substantially all of the outstanding amount, this would have a material adverse effect on our financial condition, liquidity and future revenues. We cannot provide any assurance that this customer will resume full operations and conducting business with our company in the near term, if at all. For the three months ended March 31, 2011, we recorded a provision of \$100,000 for losses on accounts receivable in connection with the outstanding amounts owed to us by this reseller.

We experience fluctuations in our cash cycle, as we generally make payments to our termination suppliers more frequently (often on a weekly basis) than we receive payments from our customers (often on a monthly basis). In the event one of our customers did not pay us, we would experience a direct loss of the amounts we had already paid to our termination suppliers. We maintain our free cash in accounts with major banks located in the United States, and generally do not invest such cash in short or long-term investments. As a way to try to offset our declining cash position we generally seek to extend payment terms to our suppliers other than our termination providers.

We have historically obtained our funding from our utilization of the remaining proceeds from our initial public offering, offset by positive or negative cash flow from our operations, and most recently from the sale of shares of our common stock to D4 Holdings in February 2009 and borrowings under our loan agreements with D4 Holdings. These proceeds are maintained as cash, restricted cash, and short and long term investments. We have sustained significant operating losses in recent periods, which have led to a significant reduction in our cash reserves. As of March 31, 2011, we had negative working capital equal to approximately \$2.9 million as well as negative stockholders' equity equal to approximately \$2.6 million. We believe that we will continue to experience losses and increased negative working capital and negative stockholders' equity in the near future, and that we will not be able to return to positive cash flow before we require additional capital (in addition to any further amounts we may borrow from D4 Holdings under the Third Loan Agreement) in the near term. We may experience difficulties accessing the equity and debt markets and raising such capital, and there can be no assurance that we will be able to raise such additional capital on favorable terms or at all. If additional funds are raised through the issuance of equity securities, our existing stockholders will experience significant further dilution. As a result of the foregoing factors, there is substantial doubt about our ability to continue as a going concern.

Off-Balance Sheet Arrangements

None.

Contingencies

For a discussion of contingencies, see Note 3 of the Notes to the Condensed Consolidated Financial Statements of this report, which is incorporated herein by reference.

Item 4T. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures.

Each of our principal executive officer and principal financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q, has concluded that, based on such evaluation, our disclosure controls and procedures as of March 31, 2011, were adequate and effective to ensure that material information required to be disclosed by us in the reports that we file and submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Controls.

There were no changes in our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

There have been no material changes to our Legal Proceedings as described in Item 3 of our Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the SEC on March 17, 2011, except as described below.

On March 29, 2011, Centre One and we filed a Stipulated Motion for Dismissal with Prejudice dismissing us from the lawsuit, which was granted by the court on March 31, 2011.

We are not a party to any other material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which we are a party or of which any of our property is the subject.

Item 1A . Risk Factors.

There have been no material changes to our risk factors as described in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as filed with the SEC, except to the extent additional factual information disclosed in this Quarterly Report on Form 10-Q relates to such risk factors and except as described below.

We are substantially dependent upon a few material customers, and any significant decline in our sales to those customers could have a material adverse effect on our business.

In 2010, two customers accounted for approximately 48.3% and 13.1% of our annual gross revenues, respectively, and in the three months ended March 31, 2011, three customers accounted for approximately 37.9%, 21.1% and 10.9% of our quarterly gross revenues, respectively. Any significant decline in our sales to any of our material customers could have a material adverse effect on our business, operating results and financial condition. At the end of February 2011 our largest reseller temporarily suspended its operations and conducting business with our company due to the recent unrest in the Middle East and ongoing instability and operating difficulties caused by such unrest. At that time this reseller owed us approximately \$196,000 for services we had rendered, and that receivable remained outstanding as of March 31, 2011. In the event that this reseller does not resume operations and conducting business with our company and pay us substantially all of the outstanding amount, this would have a material adverse effect on our financial condition, liquidity and future revenues. We cannot provide any assurance that this customer will resume full operations and conducting business with our company in the near term, if at all.

Item 6. Exhibits.

See Exhibit Index on page 20 for a description of the documents that are filed as Exhibits to this Quarterly Report on Form 10-Q or incorporated by reference herein.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this Quarterly Report on Form 10-Q to be signed on its behalf by the undersigned thereunto duly authorized.

* Filed herewith.

Exhibit 31.1

CERTIFICATION BY PRINCIPAL EXECUTIVE OFFICER

I, Effi Baruch, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of deltathree, Inc. (the "registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.2

CERTIFICATION BY PRINCIPAL FINANCIAL OFFICER

I, Arie Rand, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of deltathree, Inc. (the "registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 32.1

CERTIFICATION

**Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002**

Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. Section 1350, the undersigned officer of deltathree, Inc. (the "registrant") does hereby certify, to such officer's knowledge, that:

- (1) the Quarterly Report on Form 10-Q for the quarter ended March 31, 2011 (the "Form 10-Q") of the registrant fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) the information contained in the Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of the registrant.

Date: May 16, 2011

Effi Baruch, Chief Executive Officer, President and Senior Vice
President of Operations and Technology

The foregoing certification will not be deemed "filed" for purposes of Section 18 of the Exchange Act, or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.

Exhibit 32.2

CERTIFICATION

**Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002**

Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. Section 1350, the undersigned officer of deltathree, Inc. (the "registrant") does hereby certify, to such officer's knowledge, that:

- (1) the Quarterly Report on Form 10-Q for the quarter ended March 31, 2011 (the "Form 10-Q") of the registrant fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) the information contained in the Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of the registrant.
